Remarks made by
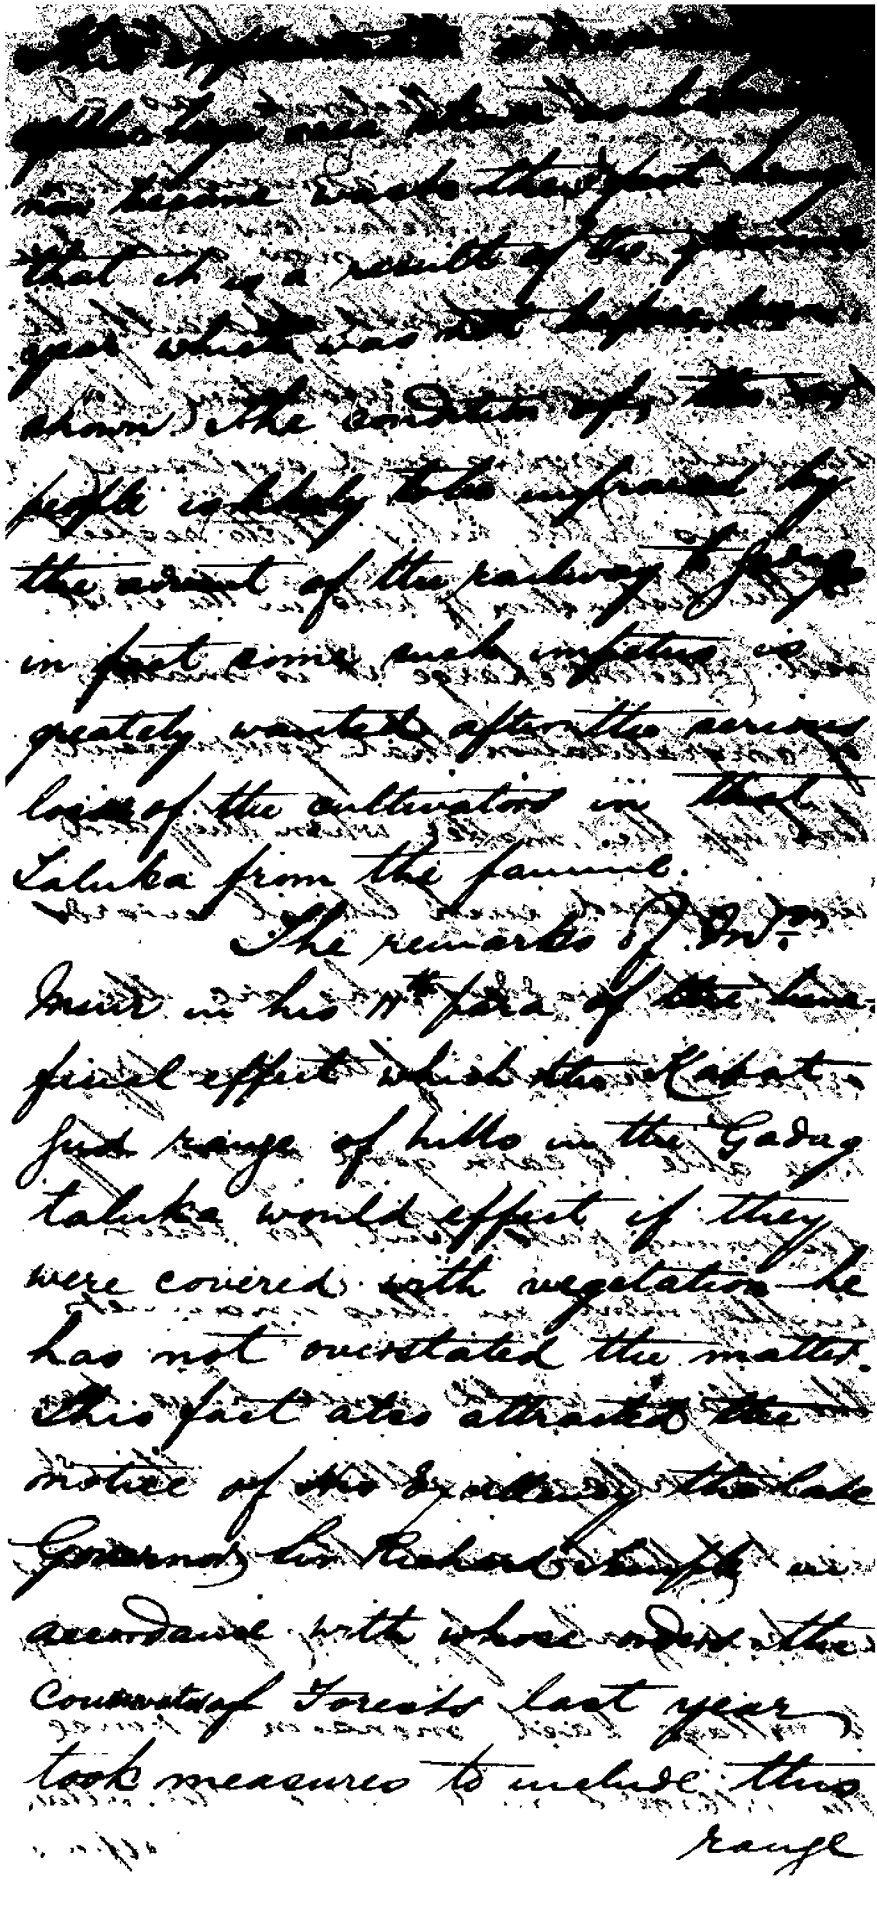
J. Elphinston Esquire Collector
Dharwar on the administration
report of Mr. Munro 1st Assistant
Collector Dharwar.

In forwarding the first
Assistant Collectors administration
report, I have the honor to make
the following remarks:—

Paras. 6 & 11 explain both
by it is such a large balance of
Land Revenue is irrecoverable and
by so great an area as 12044 acres
are become waste in the 1st Assistant
Collectors charge viz. "that the land
as abandoned in the famine or
as since remained undisposed of
imply because the arrears were
ot written off as irrecoverable
wo or three years ago, the lands

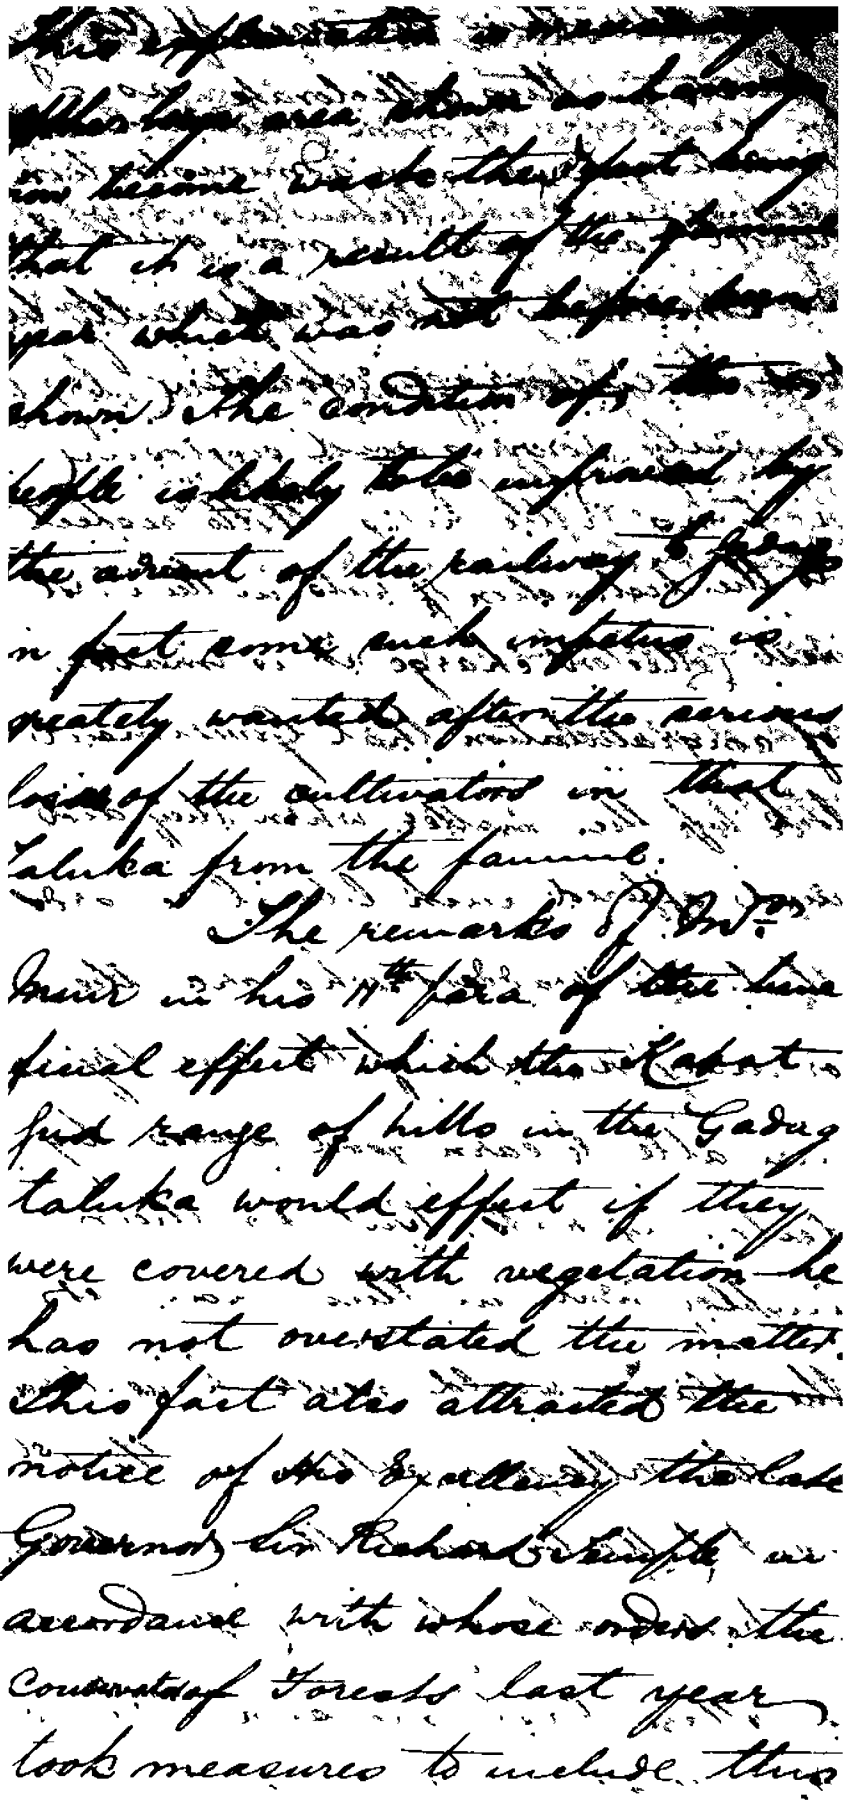
are still shown in the accounts as
in arrears & are declared absolutely
become bankrupt defaulters & who
have deserted the district in con-
sequence of the orders of Government
forbidding the writing off as irrecoverable of any balances due
for land revenue. The defunct or
deserted occupants names have
therefore not been removed from the
accounts and each year a fresh sum
was debited against them as the Land
revenue for that year. It is not
surprising therefore that so large a
balance is now described as irrecoverable
had the lands been saleable they would
long ago have been sold to realize the
arrears but in many parts of the
Bundargee Peta the other cultivators
were not in a position to under-
take fresh responsibilities. —

Sho



— still shown in the accounts as
in the case of men who had actually
become bankrupt defaulters & had
had deserted the district in con-
sequence of the orders of Government
forbidding the writing off as irrecoverable of any balances due
for land revenue. The defaulters or
deserted occupants names have
therefore not been removed from the
accounts and each year a fresh sum
was debited against them as the land
revenue for that year. It is not
surprising therefore that so large a
balance is now described as irrecoverable
had the lands been saleable they would
long ago have been sold to realize the
arrears but in many parts of the
Mundargee Peta the other cultivators
were not in a position to under-
take fresh responsibilities. —

Ibid



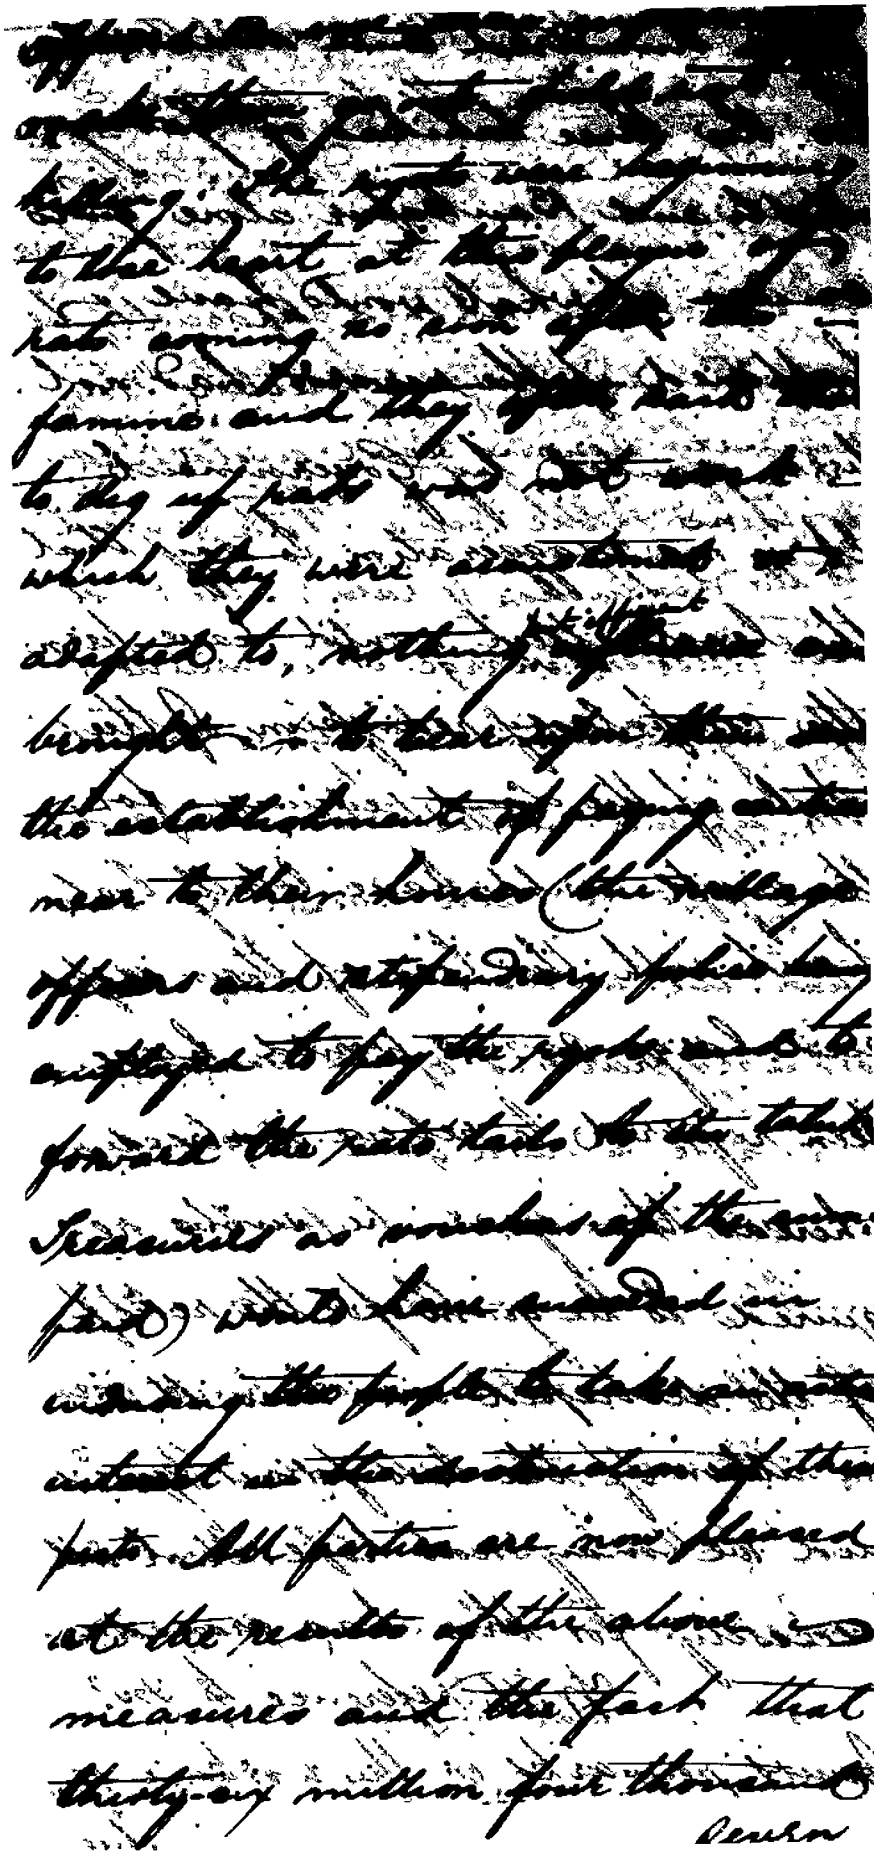
were still shown in the accounts as in occupancy of men who had either become bankrupt defaulters or who had deserted the district in consequence of the orders of Government forbidding the writing off as irrecoverable of any balances due for land revenue. The defunct or deserted occupants' names have therefore not been removed from the accounts and each year a fresh sum was debited against them as the Land revenue for that year. It is not surprising therefore that so large a balance is now described as irrecoverable Had the lands been saleable they would long ago have been sold to realize the arrears but in many parts of the Mundargee Peta the other cultivators were not in a position to undertake fresh responsibilities.

Ohio

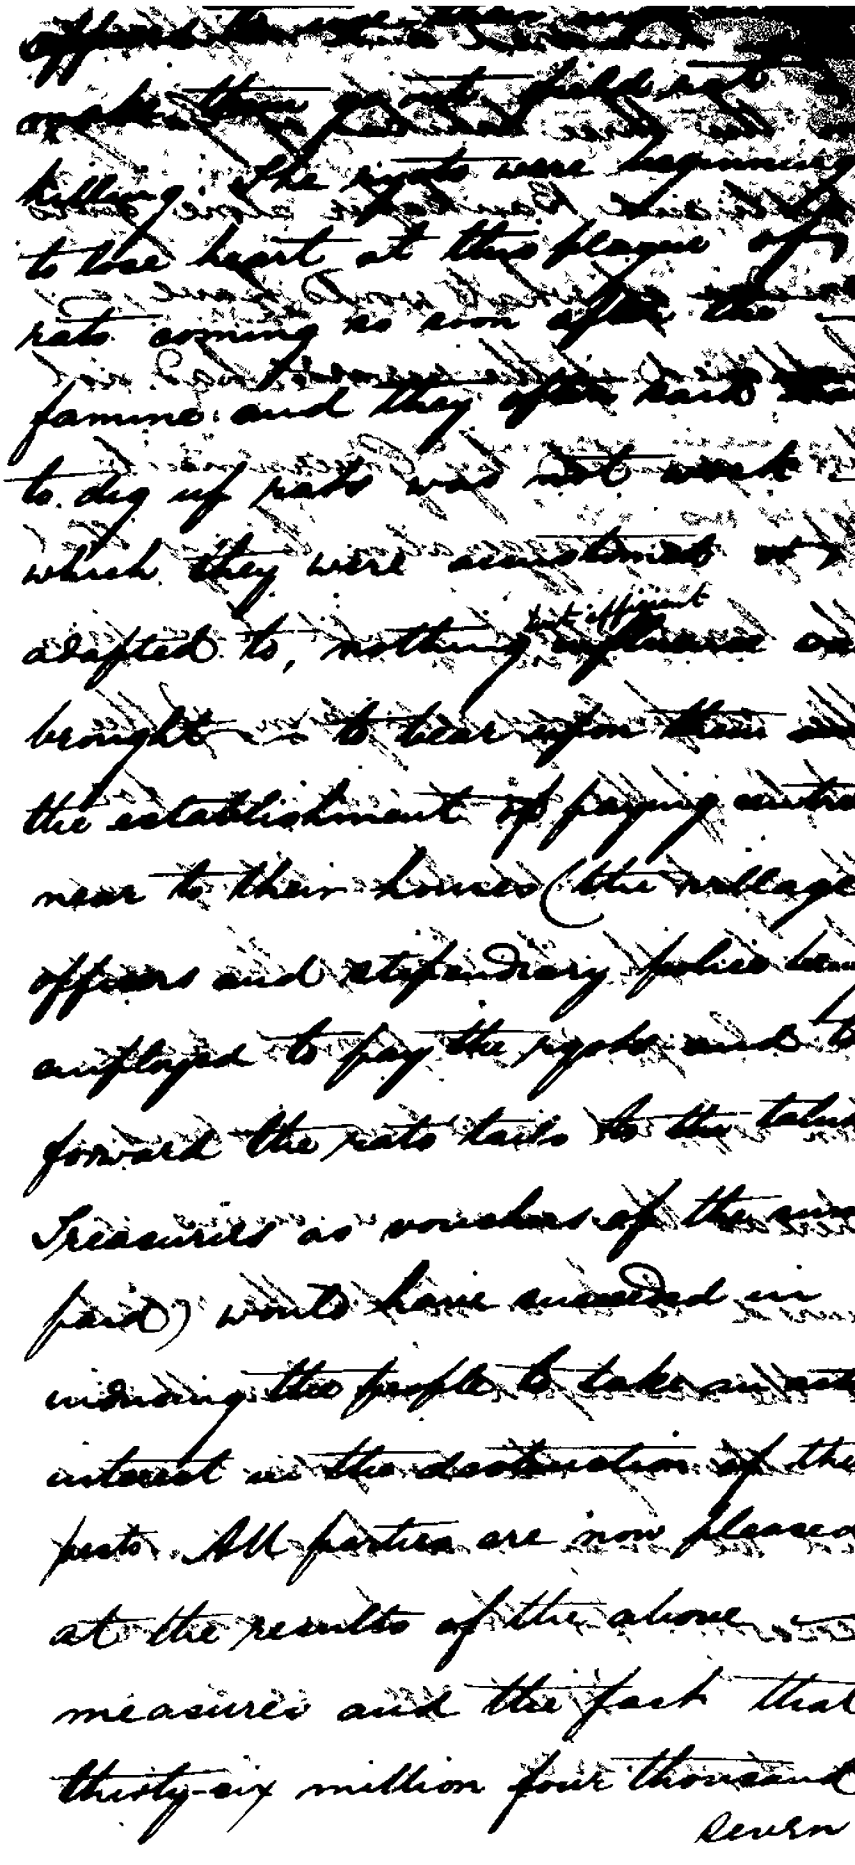
This explanation is necessary as the large area shown as barren now become waste the fact being that it is a result of the famine year which was not before known. The condition of the people is likely to be improved by the advent of the railway & [illegible] in fact come such impetus so greately wanted after the serious loss of the cultivators in that Taluka from the famine.

The remarks of Dr. Muir in his 11th para of the same final effect which the Kapat [illegible] range of hills in the Gadag taluka would effect if they were covered with vegetation he has not overstated the matter. This fact also attracted the notice of His Excellency the late Governor Sir Richard Temple in accordance with whose orders the Conservator of Forests last year took measures to include this

[illegible] matters [illegible] [illegible] [illegible]



[illegible] [illegible] [illegible]
[illegible] [illegible] [illegible] and
maintained as my demonstration
report last year is now quite bare
so something should apparently be
done to encourage reforesting by
annually sowing and watering
portions of the hills. With respect
to the destruction of rats in the first
and [illegible] charge it is matter
of congratulation that Government
took up the matter when they did
and offered such liberal rewards
that the natives who are the
ordinary hewers of the county
were able to earn good wages by
destroying rats. But for their
employment in this manner
the plague would never have been
by the villagers although the
cash collection and the Brambles
worked zealously going from village
to village last monsoon to rouse
the villagers and induce the village
officers

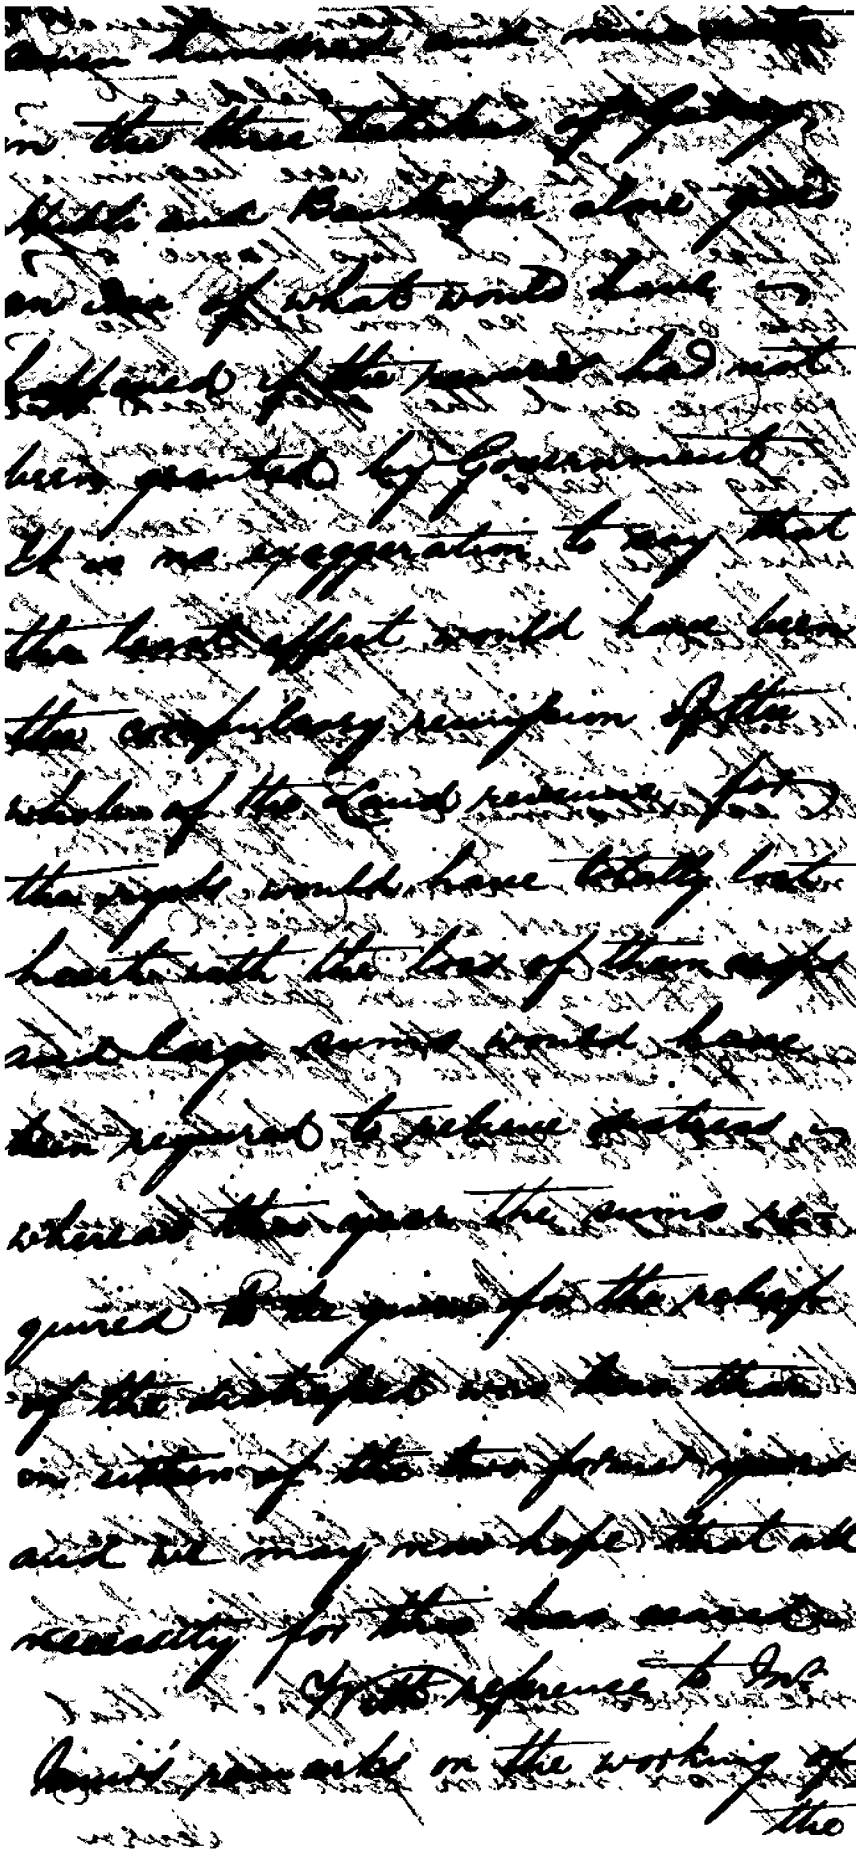


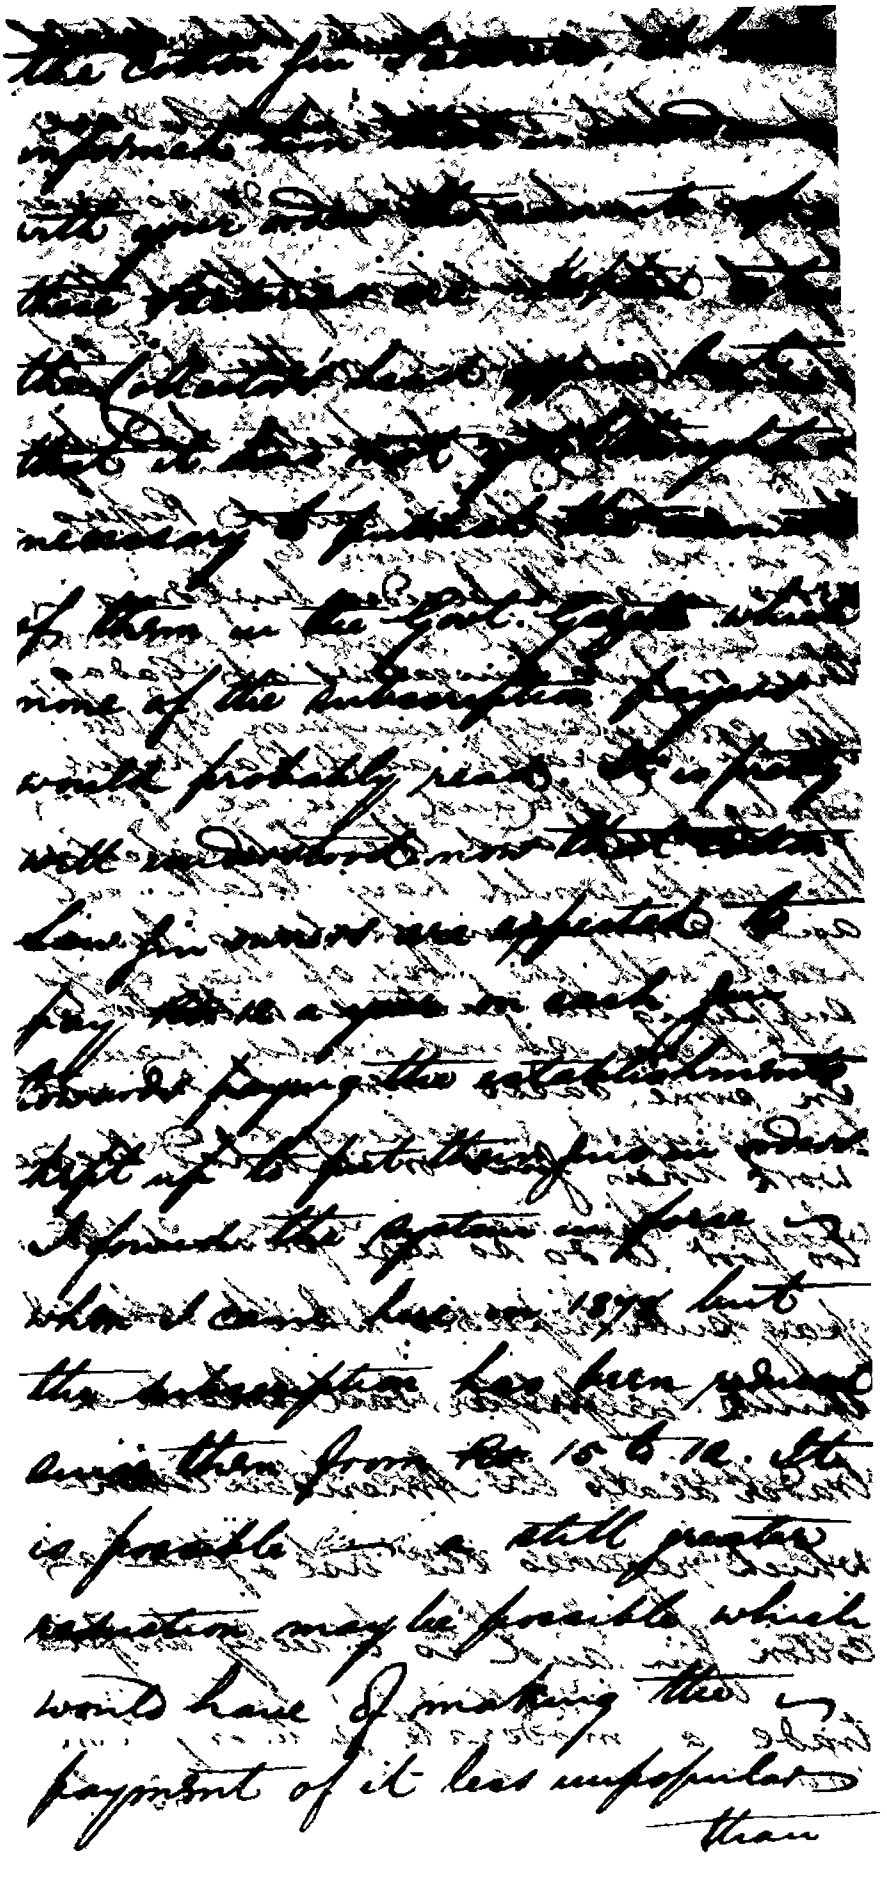
Seven

~~of rats among the~~ ~~forests in this collectorate~~ as
mentioned in my administration
report last year is now quite have
~~so something should apparently be~~
~~done to~~ encourage reforesting by
annualy sowing and enclosing
portions of the hills. ~~With respect~~
~~to the destruction of rats in the first~~
~~asst Collectors charge it is matter~~
of congratulation that Government
took up the matter when they did
and offered such liberal rewards
~~that the raiders who are the~~
ordinary hunters of the country
were able to earn good wages by
destroying rats. But for their
employment in this manner
the plague would never have been
by the villagers although the 1st
asst Collector and the Headmen
worked zealously going from village
to village last monsoon to rouse
the villagers and induce the village
officers

offered to see them ~~influence~~ ~~to~~
make them go out field rat
killing. The rats were beginning
to lose heart at the plague of
rats coming so soon after the
famine and they often said that
to dig up rats was not work
which they were accustomed or
adapted to, nothing ~~but~~ ~~influence~~ ~~could~~
brought ~~to~~ to bear upon them ~~will~~
the establishment of paying centres
near to their houses (the village
officers and stipendiary police ~~were~~
employed to pay the rats and to
forward the rats tails to the taluk
Treasuries as vouchers of the sum
paid) would have succeeded in
inducing the people to take an active
interest in the destruction of these
pests. All parties are now pleased
at the results of the above
measures and the fact that
thirty-six million four thousand

Seven





[illegible] Income and [illegible]
in the three Talukas of Jhang,
Khanewal and Kamalpur alone give
an idea of what would have
happened if the remedy had not
been granted by Government.
It is no exaggeration to say that
the least effect would have been
the compulsory resumption of the
whole of the land revenue for
the people would have totally lost
heart with the loss of their crops
and large sums would have
been required to relieve distress
whereas this year the sums required
to be given for the relief
of the distressed was less than
one fifteenth of the two former years
and we may now hope that all
necessity for this has ceased.

With reference to Inspr
General's remarks on the working of
the

[illegible] the Cotton [illegible]
[illegible] informed him [illegible]
with your [illegible] that
these Factories are [illegible] the
the Collector's [illegible] that
that it [illegible] necessary
of them in the Govt. Gazette which
none of the subscription papers
would probably reach. It is pretty
well understood now that Cotton
Law firms are expected to
pay Rs. 12 a year on each for
towards paying the establishments
kept up to put them in order.
I found the System in force
when I came here in 1878 but
the subscription has been raised
since then from Rs. 6 to 12. It
is possible a still greater
reduction may be possible which
would have the effect of making the
payment of it less unpopular
than

seven hundred and nine rupees
in the three talukas of Gadag,
Mudhol and Bankapur alone gives
an idea of what would have
happened if the remissions had not
been granted by Government.
It is no exaggeration to say that
the least effect would have been
the compulsory remission of the
whole of the Land revenue for
the year. would have totally lost
heart with the loss of their crops
and large sums would have
been required to relieve distress,
whereas this year the sums required to be given for the relief
of the distressed was less than
in either of the two former years
and we may now hope that all
necessity for this has ceased.

With reference to Mr.
Bowie's remarks on the working of
the

[illegible] the Cotton fin [illegible]
informed him [illegible]
with your order [illegible]
these factories are [illegible]
the Collector's last [illegible]
that it has not yet [illegible]
necessary to publish the names
of them in the Govt. Gazette which
none of the subscription papers
would probably read. It is pretty
well understood now that Cotton
Saw fin owners are expected to
pay Rs 12 a year on each fin
towards paying the establishments
kept up to put these fins in order.
I found the system in force
when I came here in 1878 but
the subscription has been reduced
once then from Rs 15 to 12. It
is possible a still greater
reduction may be possible which
would have the making the
payment of it less unpopular
than

upon what establishment we
expect a rate of profit so much
above the interest of the Cash
from which we draw the Bills
for the Cotton shipped by
these subscribers and Rutledge
were in each Instance buying
three or four hundred Bales of Cotton
Mobile, Georgia and Carolina
for himself and the subscribers
and sometimes fifteen hundred
Bales during the time with the
In some cases when we did not
work their first or who had some
to first to do so we proceed to
pay subscriptions which would
think unjustifiable but where a
trader deals in American cotton
which requires the use of a
cotton gin and is a very profitable
trade a moderate subscription

many [illegible]
[illegible]
worked because of the fine [illegible]
[illegible]
[illegible]
reputation of the Khanapur Taluka
[illegible]
[illegible]
[illegible]
[illegible]
(Paras 15 and 16) The reason why
the rate per head was higher in
Hubli taluka than in the other
talukas of the 1st class collectorate
charge is apparently that the Mamlatdar has found fewer of the
artizan and small trader class in
this taluka able to pay the tax
has in consequence assessed the
richer traders than the Mamlatdars
of the other talukas. In the
Kalghatgi taluka which contains
far fewer traders than the others

many

[illegible] it is evident that [illegible]
upon what establishment are
expended out of the funds so rais
up by the abolition of the Cotto
frauds Act extent on the 2nd of
May. The Cotton Inspectors had by
their subscriptions raised Rupees
25000 in each heading building
three or four bungalows at Jaga
Hatli in Hooghly and Bankipur
for himself and the Subinspecto
and commodious godowns beau
supplying the factories with bal
In some cases men who had n
work their fair or who had bee
too foul to do so were proceed
pay subscriptions which was
think unjustifiable but where a
trader deals in American cotton
which requires the use of a
cotton fan and is a very profitable
trade a moderate subscription

many and should be [illegible]
collected for only [illegible] should be
worked otherwise if the fines are
not kept in good order and the
condition carefully seen to the
reputation of the Dharwar Zilla
for good American cotton will be
lost and with it the trade in that
valuable article of commerce.

(Paras 15 and 16) The reason why
the rate per head was higher in the
Hubli taluka than in the other
talukas of the 1st Assistant Collector's
charge is apparently that the Mamlatdar
Mamlatdar has found fewer of the
artizan and small trader class in
this taluka able to pay the tax
has in consequence assessed the
richer traders than the Mamlatdars
of the other talukas. In the
Kalghatgi taluka which contains
far fewer traders than the others

many

does it is not but that depend upon what establishment are engaged out of the funds so raised up to the abolition of the Cotton Frauds Department on the 21st of May the Cotton Inspector had by these subscriptions raised Rupees 35000 in cash besides building three or four bungalows at Godagi, Hubli, Haveri and Bankapur for himself and the subinspectors and commodious factories besides supplying the factories with tools. In some cases men who did not work their gins or who had become too feeble to do so were pressed to pay subscriptions which was I think improper but where a trader deals in American cotton which requires the use of a gin cotton gin and is a very profitable trade a moderate subscription

may

may and should be [illegible]
collected for every gin which is
worked otherwise if the gins are
not kept in good order and their
condition carefully seen to the
reputation of the Dharwar Zilla
for good American cotton will be
lost and with it the trade in this
valuable article of commerce.

(Paras 15 and 16) The reason why
the rate per head was higher in the
Hubli taluka than in the other
talukas of the 1st asst. Collector's
charge is apparently that the Hubli
Mamledar has found fewer of the
artizan and small trader class in
this taluka able to pay the tax &
has in consequence assessed the
richer traders more than the Mamledars
of the other talukas. In the
Kalghatgi taluka which contains
far fewer traders than the others

many

[illegible] Laws [illegible] amount to the tax from the fact that so many as 8/9 of the population are exempt [illegible] which is more than any other [illegible] in this charge.

Para 26. I quite agree with Mr Muir that the completion of the road from Gadag to Bellary in the Gadag Taluka viz the portion between Bankal and the Lunghada river 20 miles in extent is most necessary for the trade of the Gadag Taluka, now cotton goes from Gadag to Bombay by Bellary during the monsoon and much more would go were the road a good one and bridged throughout. The latter is most urgently required as the road is essentially for monsoon traffic for in the fair season cotton goes to Laxmeshwar

[illegible] great that it might [illegible]
effects on the [illegible]
would sanction the [illegible]

Para 27. Mr. Hunt [illegible]
[illegible] painted on the wall
of [illegible] enter in his eastern
tablet this year the tanks
which were [illegible] repaired
here in the other [illegible]
tablets. The great number
of miles of road in this large
district and the fact that
many of these roads run
through black soil fields where
gravel or metal even is needed
to keep them in good order during
the rains is one reason why
more has not yet been done
to improve the water supply.
The construction of wells

in

many ~~appointments~~ must I think have been included among those assessed to the tax from the fact that as many as 2.69 of the population are assessed to it which is more than any other taluka in this charge.

Para 26. I quite agree with Mr. Muir that the completion of the road from Gadag to Bellary in the Gadag taluka viz. the portion between Ranibal and the Tungbhadra river 30 miles in extent is most necessary for the cotton trade of the Gadag taluka, now cotton goes from Gadag to Bombay by Bellary during the monsoon and much more would go were the road a good one and bridged throughout. The latter is most urgently required as this road is essentially for monsoon traffic for in the fair season cotton goes to Karwar and

~~and complete the system of~~
~~this improvement would not be~~
great that it might not be
effected in one season & thus
would sanction the est.

Para 27. Mr. Muir
rightly pointed out the want
of good water in his eastern
talukas; this year the tanks
which were ~~repaired~~ repaired
were in the other ~~part~~ Collectorate
talukas. The great number
of miles of road in this large
district and the fact that
many of these roads pass
through black soil fields where
gravel or metal even is needed
to keep them in good order during
the rains is one reason why
more has not yet been done
to improve the water supply.
The construction staff is with
in

many agriculturists must I think have been misled among those assessed to the tax from the fact that as many as 2.69 of the population are assessed to it which is more than any other Taluka in this charge.

Para 26. I quite agree with Mr. Muir that the completion of the road from Gadag to Bellary in the Gadag Taluka viz. the portion between Bombal and the Lunbhadra river 20 miles in extent is most necessary for the trade of the Gadag Taluka, now cotton goes from Gadag to Bombay by Bellary during the monsoon and much more would go were the road a good one and bridged throughout. The latter is most urgently required as this road is essentially for monsoon traffic for in the fair season cotton goes to Karwar

[illegible] this improvement [illegible] great that it might not be effected in one season if [illegible] would sanction the [illegible]

Para 27. Mr Muir [illegible] rightly pointed out the want of good water in his eastern talukas; this year the tanks which were repaired & repaired here in the other [illegible] talukas. The great number of miles of road in this large district and the fact that many of these roads run through black soil fields where gravel or metal even is needed to keep them in good order during the rains is one reason why more has not yet been done to improve the water supply = The construction of tanks & wells in

many agriculturist must I think have been included among those assessed to the tax from the fact that as many as 2.69 of the population are assessed to it which is more than any other Taluk in this charge.

Para 26. I quite agree with Mr. Muir that the completion of the road from Gadag to Bellaree in the Gadag Taluka viz. the portion between Mundhal and the Lingbhadra river 20 miles in extent is most necessary for the cotton trade of the Gadag Taluka, now cotton goes from Gadag to Bombay by Bellaree during the monsoon and much more would go were the road a good one and bridged throughout This latter is most urgently required as this road is essentially for monsoon traffic for in the fair season cotton goes to Karwar

~~[illegible]~~ this improvement ~~[illegible]~~ great that it might not be effected in one season if Govt. would sanction the est.

Para 27- Mr Muir ~~[illegible]~~ rightly pointed out the want of good water in his eastern talukas, this year the tanks which were improved & repaired were in the other ~~[illegible]~~ talukas. The great number of miles of road in this large district and the fact that in many of these roads run through black soil fields where gravel or metal even is needed to keep them in good order during the rains is one reason why more has not yet been done to improve the water supply. The construction of tanks & wells in

[illegible] [illegible] [illegible]

~~in which people around~~ ~~[illegible]~~
~~their water to~~ does not tend to
the improvement of the drinking
water. Draw wells are the best for
this sort in the eastern & northern
talukas where the soil is black
the well water is very often black
and then there is nothing but
tank-water to depend on. The soft
loamy black soil soon fills
tanks with silt if they are not
furnished with a small tank
to collect the silt and allow the
water to filter through an earthen
dam into the drinking tank. Such double tanks are
expensive to make because the
centre dam should be strong to
stand the rush of the water in
the rains and the banks which
are of the same soft crumbly
earth have to be faced with stones
or they will be soon full of cracks

all that ~~we~~ could be done
in favor of ~~the~~ ~~the~~ ~~the~~
surgeon now at Thuthi. He adopts
and methodical and takes a pride
in having his dispensary neat
and efficient. I have already
spoken of him laudatorily in the
Collector's administration report.

Para 37. Mr. Muir has evidently
paid good attention to the subject
of registering the birth returns
reported. It is (as he describes) far
more common that a birth is
omitted to be entered in a family.
This is partly owing to the fact that
births do not come so prominently
to the notice of the public and
that parents do not report them
to the village officers especially
when the village accountant who
writes the register of births lives
in another village (frequently

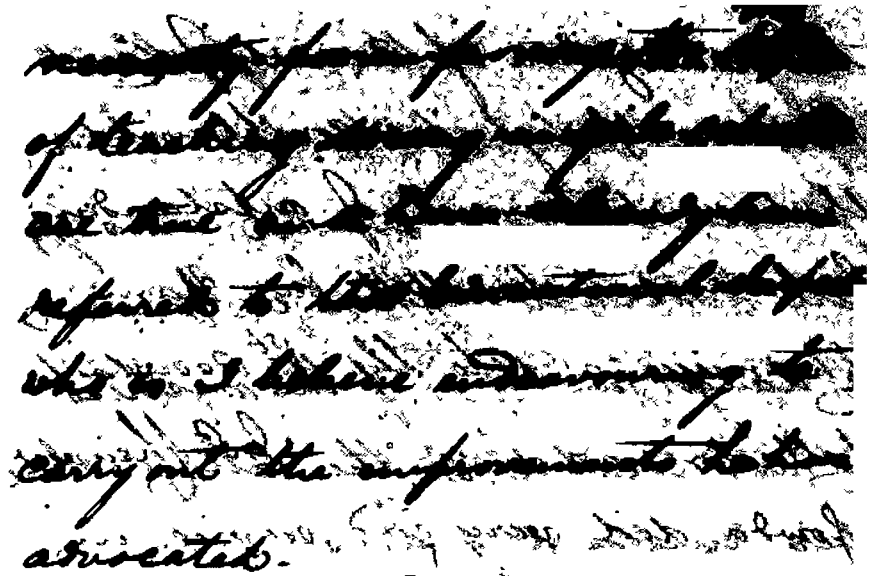
the man keeps the accounts of two or three villages and as a matter of course domestic arrangement in the villages he does not reside in, are not so soon brought to his notice.) It also frequently happens that women go to their parents houses for their confinements, this is said to be almost a general rule in the case of first confinements, this might perhaps account for the non registration of the birth for a time until some time after it had occured. The 1st assistant collector is right in pointing to vaccinators as useful auxiliaries to check the birth registers and omissions to register births which they discover should be brought to the notice of the Assistant Collector who would call upon the

the village appears to explain them.

Para 3. The Assistant Collector has visited most of the schools in his district a good deal especially when the last that for six weeks out of the five months since he took charge of his office at the end of December last he was on privilege leave. His interest in the cause of education has been evinced in several letters on the state of progress in several schools the manner children are taught and whatever appeared to call for amendment. I do not however think such evil results as he anticipated likely to follow from the male teachers in girl schools because the girls are removed removed at a very early age though of course the Educational Department

is

[illegible] where
[illegible] [illegible]
[illegible] [illegible]
a danger in the matter
if not located in the village where
her husband resides as for
instance at Dundagee in the
Godag taluka the teacher an
intelligent woman of the Byadar
(a rather low caste members of
which are often prostitutes) has a
husband who is living with
another wife at Kheajam in the
Bankapur taluka 51 miles distant.
Complaints as to her conduct were
made and it was thought advis-
able to place her in charge
of the girls school in her own
village which I think has been
done. Mr. Munro remarks on the



notice the remarks in B.S. Bruce's 9th para on the resignation of the Inhabitary of Mundargee [illegible] Sayan South in Chanmerfonda in collecting the arrears of Land Revenue. I have written to ask the 1st assistant Collector in what letters he brought this to notice because I am unable to trace in my records more than two letters in which B.S. Bruce has mentioned his conduct unfavourably and neither of those was reference made to

the

~~[illegible]~~ of having female teachers where proper ~~[illegible]~~ certificated ones may are available, there is however a danger in the case of the mistress ~~is~~ not located in the village where her husband resides as for instance at Inundagee in the Gadag taluka the teacher an intelligent woman of the Byadar (a rather low caste members of which are often prostitutes) has a husband who is living with another wife at Sheagaon in the Bankapur taluka 5 miles distant. Complaints as to her conduct were made and it was thought advisable to place her in charge of the girls school in her own village which I think has been done. Mr. Muir's remarks on the

[illegible] of [illegible] [illegible] [illegible]

~~is quite alive to the importance~~
~~of having female teachers~~ where
passed and certificated ones
are available, there is however
a danger in this if the mistress
is not located in the village where
her husband resides as for
instance at Inundagee in the
Gadag taluka the teacher an
intelligent woman of the Byader
(a rather low caste members of
which are often prostitutes) has a
husband who is living with
another wife at Sheagaon in the
Bankapur taluka 5 miles distant.
Complaints as to her conduct were
made and it was thought ad-
visable to place her in charge
of the girls school in her own
village which I think has been
done. Mr. Muir's remarks on the

necessity for enforcing the [illegible]
of teaching among the [illegible] which
are true and I am always glad to
refer to the Executive Officer
who is I believe endeavouring to
carry out the improvements he has
advocated.

In conclusion I must
notice the remarks in Mr. Inwin's
9th para on the peculiarities of the
Inhabitants of Mundargee [illegible]
Sayan Sowda Lin
Lennee Sowda in collecting the
arrears of Land Revenue. I have
written to ask the 1st assistant
Collector in what letters he brought
this to notice because I am
unable to trace on my records
more than two letters in which
Mr. Inwin has mentioned his
conduct unfavourably and neither
of those was reference made to
the

the prodigality of ~~Sardar~~ Bapuji Thange, and compounded that a statement of outstanding balances submitted by Mr. Shamgonda Shamrangonda to the 1st Assistant Collector was incorrect. Mr. Shamrangonda did very good service in the famine time and has left behind him a good name as an active energetic officer which therefore stay the 1st assistant Collection made in his Taluka only from the 19th to the 23rd of January could hardly qualify him to form a very sound judgement of Mr. Shamrangonda certainly afterwards stayed for one or two days at Gadag on the 14th April when Mr. Shamrangonda was acting as Amaldar but as his whole stay in his taluka was limited to six days I think

It would have been well to have stated more particularly what his grounds were for bringing a charge against Mr Shivan Jonda but Shivan Jonda that he does not exert himself and do all in his power to realize the Government demand promptly. Mr Shivan Jonda's charge, this Mundargi Peta suffered notorious more than any other part of the district during the famine and hitherto he was not found backward in realizing all that was possibly recoverable.

In reference to the remarks in my concluding para I beg to append extract paras of the two letters from the First Assistant Collector which he says contain his remarks on the conduct of

the realization of arrears of Land
Revenue through me, and I found
that a statement of outstanding
balances submitted by Rao Shrimant
Khanderao Gowda to the 1st Assistant
Collector was incorrect. Mr. Shrimant Khanderao
Gowda did very good service in
the famine time and has
hitherto borne a good name as
an active energetic officer which
the short stay of the 1st assistant
Collector made in his late viz.
from the 19th to the 25th of January
could hardly qualify him to form
a very sound judgement of Mr.
Rao certainly afterwards stayed
for one or two days at Gadag on
the 14th April when Mr. Shrimant Khanderao Gowda
was acting as Mamledar but as
his whole stay in his taluka was
limited to six days I think

it would have been well to have stated more particularly what his grounds were for bringing & sustaining a charge against Lt. Shivan Sowda Lini Theimir Sowda that he dare not exert himself and do all in his power to realize the Government demand promptly. In Lt. Shivan Sowda's charge, the Mundargi Peta suffered notoriously more than any other part of the District during the famine and hitherto he was not found backward in realizing all that was possibly recoverable.

"In reference to the remarks in my concluding para I beg to append extract paras of the two letters from the First Assistant Collector which he says in his remarks on the conduct

the realization of arrears of Land Revenue through me complained that a statement of outstanding balances submitted by Appa Shivangonda Shanmugonda to the 1st Assistant Collector was incorrect. Mr. Shivangonda Shanmugonda did very good service in the famine time and has hitherto borne a good name as an active energetic officer which the short stay of the 1st assistant Collector made in his Peta viz from the 19th to the 23rd of January could hardly qualify him to form a very sound judgement of. Mr. Bruce certainly afterwards stayed for one or two days at Gadag on the 14th April when Mr. Shivangonda Shanmugonda was acting as Manlekar but as his whole stay in his talooka was limited to [illegible] he

it would have been well had he stated more particularly what his grounds were for bringing & managing a charge against Mr. Shivan Jowda but Shivur Jowda that he dare not exert himself and do all in his power to realize the Government demand promptly. On Mr. Shivan Jowda's charge, the Mundargi Peta suffered notoriously more than any other part of the district during the famine and hitherto he was not found backward in realizing all that was humanly recoverable.

In reference to the remarks in my concluding para I beg to append extract paras of the two letters from the Sirsi assistant collector which he says contain his remarks on the subject

of the Mamlatdar Mahalkari
referred to in para 9 of the
Administration Report. Those
remarks bring to notice in-
accuracies and delay in sub-
mitting statements of outstanding
arrears of Land Revenue for
the Gadag taluka when Mr.
Shivram Gouda Devi Chenvir Gowd
was acting Mamlatdar and have
no reference at all to his conduct
as Mahalkari in the collection
of those arrears.

Dharwar
25th July
1880.

Asst. Collector.

[illegible]

have the honor to
submit the report called for
in your No 1624 dated 25th
March last. I was also
yet to report definitely from
about the Hubli, Belgaum
& Bankapur Schools. On my
to the remainder & most important
of the Gadag Municipal Schools
am not yet in a position
to submit a final report
about the Gadag Schools. I
hope to be able to do so in a
few days. I submit this in
complete report now as I
hope shortly to go on leave
& I am desirous of placing
in your hands before I go
all the information that I

have

of the Gundargi Mahalkari referred to in para 9 of the Administration report. These remarks bring to notice inaccuracies and delay in submitting statements of outstanding arrears of Land Revenue for the Gadag taluka when Rt. Shivan Gowda Desai of Shemvir Gowda was acting Mamlatdar and have no reference at all to his conduct as Mahalkari in the collection of those arrears.

Dharwar
2nd July
1880.

A.F. Collector.

~~Dated 21st, of the~~
~~I have letter by 29th of the~~
~~Report last to the~~
~~the Collector.~~

~~I have the honor to~~
submit the report called for
in your ho 1624 dated 25th
March last. I am ~~also~~
yet, to report definitely
about the Hubli, Kalgha &
Karkapar Talukas. Owing
to the remoteness & inaccessibility
of the Gadag Lamidabad &
am not yet in a position
to submit a final report
about the Gadag Taluka. I
hope to be able to do so in a
few days. I submit this ~~in~~
complete report now - as I
~~hope~~ hope shortly to go on leave
& I am desirous of placing
in your hands before I go
all the information that I
have

of the Mundargi Mahalkari referred to in para 9 of his administration report. These remarks bring to notice inaccuracies and delay in submitting statements of outstanding arrears of Land Revenue for the Gadag taluka when Mr. Shivan Gowda Son of Khenvir Gowda was acting Mamlatdar and have no reference at all to his conduct as Mahalkari in the collection of those arrears.

last letter to you of the 2nd
April last the Collector
~~the Collector~~.

I have the honor to
submit the report called for
in your No 1624 dated 25th
March last. I am able
yet to report definitely
about the Hubli, Kalghatgi
& Sankapur Talukas. Owing
to the remissness & inaccuracy
of the Gadag Kumashtas I
am not yet in a position
to submit a full report
about the Gadag Taluka.
hope to be able to do so in
few days. I submit this in-
complete report now - as I
~~hope~~ hope & hastily to go on leave
& I am desirous of placing
in your hands before I go
all the information that I
have

[illegible] on the subject

Extract from the [illegible]
[illegible] dated 22nd April
1880 to the address of the Collector.

5. With reference to
[illegible] your former letter
(dated [illegible]) I am not yet in a
position to submit a final
report on the alleged Gadar
Mamlatdar's conduct in this
matter. I would however
now note that on 8th March
& again on 14th April (instant)
I had to return him the
report & statement about
these remissions. The figures
that he had submitted did
not tally with the entries in
his former reports & yet
no explanation of the discrepancy
figures had been given.
The statements had not
been made out with proper

ware on this subject.

Extract from a/c of his
private letter No 322 of 30th April
1880 to the address of the Collector.

With reference to
para 1 of your former letter
(No 287) I am not yet in a
position to submit a final
report on the shy Gadoo
Mamlatdar's conduct in this
matter. I would however
now note that on 8th March
& again on 14th April (instant)
I had to return him his
report & statements about
these remissions. The figures
that he had submitted did
not tally with the entries in
his former reports & yet
no explanation of the discre-
pancies had been given.
The statements had not
been made out with proper

case. I have now enclosed herewith an abstract explanation of how the several matters arose, and to whose transgressions they are chiefly due. On receiving the explanation called for I shall address you again about this matter & that mentioned in para 5 of your No 318 dated 28th Instant."

True extracts.

on the subject

Extract from the 4th
Minute of the 22 of 7th April
1880 to the address of the Collector.

4. With reference to
para 7 of your former letter
(No 88) I am not yet in a
position to submit a final
report on the shy Cadre
Commandant's conduct in this
matter. I would however
now note that on 8th March
& again on 16th April (instant)
I had to return him his
report & statement about
these rumours. The figures
that he had submitted did
not tally with the entries in
his former reports & yet
no explanation of the discrepancies
had been given.
The statements had not
been made out with proper

case. [redacted] this is a Statistical system
[illegible] of how the amounts
-tained arose, but to show
requirements they are yearly
due. On receipt of the ex-
-planation called for I shall
address you again about the
matter which mentioned in
para 5 of my letter of
28th Instant.

True extract.

Superintendent
of Collector.

Rawe on this subject.

Extract para 4 of his
Memo letter No 322 of 30th April
1880 to the address of the Collector.

4. With reference to
para 1 of my former letter
(No 287) I am not yet in a
position to submit a final
report on the Ahy Gadi
Mamlatdar's conduct in this
matter. I would however
now note that on 8th March
& again on 16th April (since
I had to return him his
report & statements about
these remissions. The figures
that he had submitted did
not tally with the entries in
his former reports & yet
no explanation of the discre-
pancies had been given.
The statements had not
been made out with proper

case. I have now extracted
from me a detailed explana-
tion of how the several mis-
takes arose, & to whose
circumstances they are specially
due. On receiving the ex-
planation called for I shall
address you again about this
matter & shall mention in
case of any [illegible] dated
28th Instant."

the 1st 1879 to 23rd January 1880 and
from 8th March 1880 to the

From 24th January to 7th April 1880 the revenue Charge of Dharwar and Nowlgund, ~~were~~ was under Mr Muir, the Magisterial Charge of Dharwar was under Mr. Hughes, and Nowlgund was under you. Mr Hughes had the Magisterial First Class Charge of the three (3) Talukas from 8th May 1880 to 7th June 1880 or to 29th May 1880.

I had the Magisterial First Class Charge of Gadag from 1st July to 18th December 1879 and was in charge of the First Assistant Collector's Charge from 23rd November to 3rd December 1879 and was in charge of the Nubli and Kulshutghi Talukas from 4th to 18th December 1879 and was in Charge of the Dharwar Treasury from 10th to 18th April 1880 and was in Charge of the Gadag, Nubli and Kulshutghi Talukas from 6th or from 8th May 1880 to 7th June 1880. Necessary information relating to the year under report has been

been supplied to me.

2. A return of places at which Residence during the year | I have resided during the year, and the number of days spent at each, is forwarded herewith (Appendix I)

II Revenue (a) Jamabandi

3 The Jamabandi Settlement was effected during the period under the charge of which I did the Jamabandi of 82 villages, of which 62 were revised assessment villages and Mr. Muir did the Jamabandi of 98 villages, of which 69 were revised assessment villages, of Dharwar. You did the Jamabandi of Gadag.

Talukas	Commenced	Completed
Dharwar	6th January 188	13th March 188
Nowlgund	3rd February 188	12th February 188
Gadag	24th November 187	8th December 187

4 The results of the Settlement are as under:—

From 24th January to 7th April 1880
the Revenue Charge of Dharwar and
Nowlgund, was under Mr Muir. The
Magisterial Charge of Dharwar was
under Mr Hughes and Ron was under
you. Mr Hughes had the Magisterial
First Class Charge of the three (3) Talukas
from 8th May 1880 to 7th June 1880 or to
29th May 1880

I held the Magisterial First
Class Charge of Gadag from 1st
July to 18th December 1879 and
was in Charge of the First Assistant
Collector's Charge from 23rd Novem-
ber to 3rd December 1879 and was
in Charge of the Nubli and Kul-
kutchi Talukas from 4th to
18th December 1879 and was in
Charge of the Dharwar Treasury from
10th to 18th April 1880 and was in
Charge of the Gadag, Nubli and Kulkutchi
Talukas from 6th or from 8th May 1880
to 7th June 1880. Necessary information
relating to the year under report has

Over

been disposed of by me.

2. A return of places at which I have resided during the year, and the number of days spent at each, is forwarded herewith (Appendix I)

II Revenue (a) Jamabandi

3 The Jamabandi Settlement was effected during the period detailed in the margin. I did the Jamabandi of 82 villages, of which 62 were revised assessment villages and Mr. Muir did the Jamabandi of 98 villages, of which 69 were revised assessment villages of Dharwar. You did the Jamabandi of Ron.

Talukas	Commenced	Completed
Dharwar	6th January 1880	13th March 1880
Nowlgund	3rd February 1880	19th February 1880
Ron	24th November 1879	8th December 1879

4 The results of the Settlement are as under :—

From 24th January to 7th April 1880
the revenue Charge of Dharwar and
Non Guard, were under Mr. Main. The
Magisterial Charge of Dharwar was
under Mr. Hughes and Ron was under
you. Mr. Hughes had the Magisterial
First Class Charge of the three (3) Talukas
from 8th Jan. 1880 to 7th June 1880 or to
29th May 1880

I held the Magisterial First
Class Charge of Gadag from 1st
July to 18th December 1879 and
was in charge of the First Assistant
Collector's Charge from 23rd Novem-
ber to 3rd December 1879 and was
in Charge of the Nubli and Kul-
Kulgi Talukas from 4th to
18th December 1879 and was in
Charge of the Dharwar Treasury from
10th to 18th April 1880 and was in
Charge of the Gadag, Nubli and Kulgi
Talukas from 6th or from 8th May 1880
to 7th June 1880. Necessary information
relating to the year under report has

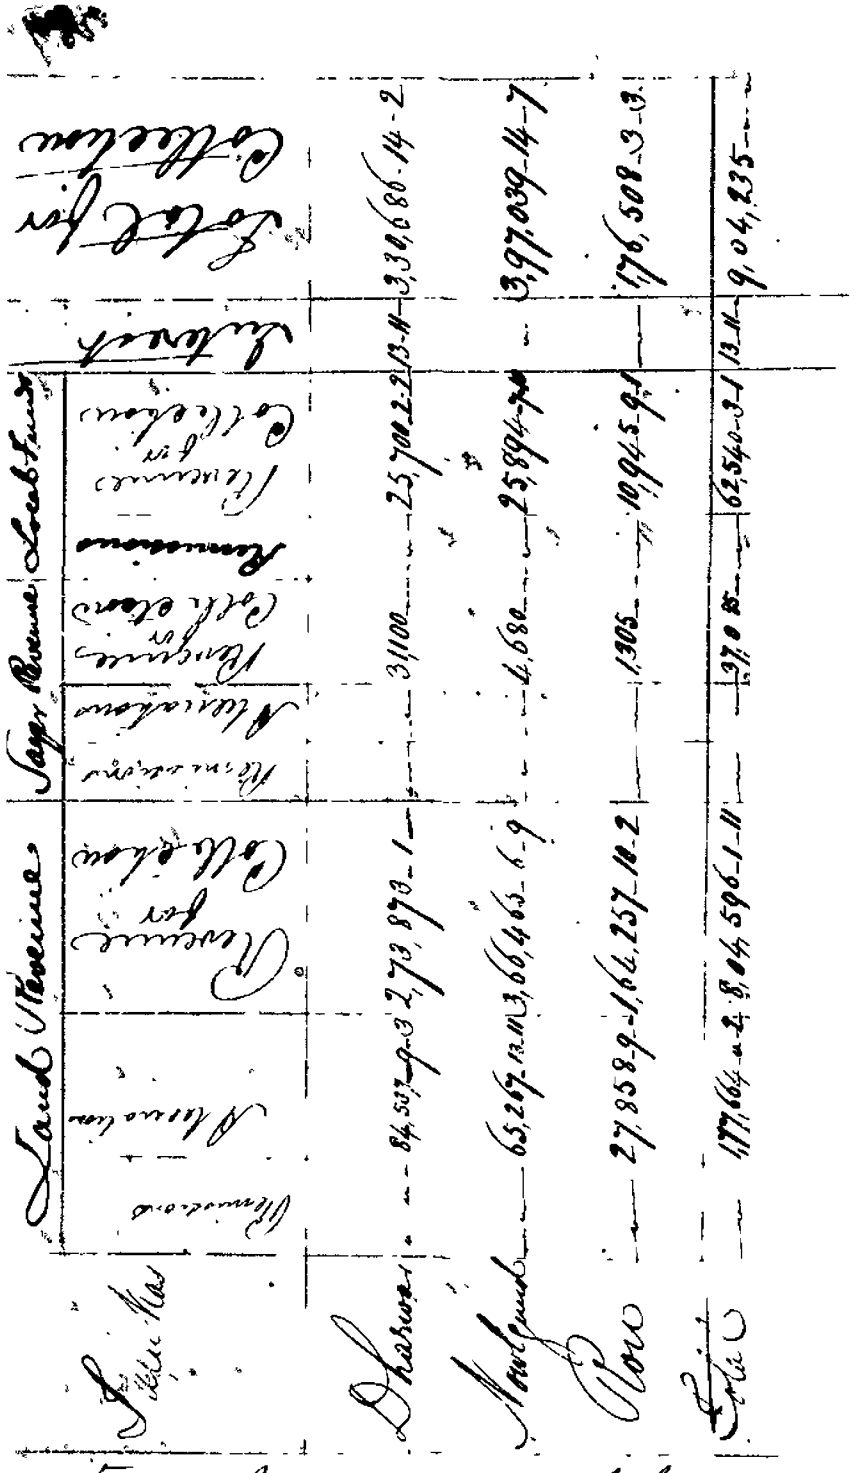
been supplied to me.

2. A return of places at which I resided during the year & I have resided during the year, and the number of days spent at each, is forwarded herewith. (Appendix I)

II Revenue (a) Jamabandi

(3) The Jamabandi Settlement was effected during the Dharwar & Ankola Talukas. Commenced 6th January 1880 & Completed 13th March 1880 period of date Vowlgund 3rd February 1880 & 12th February 1880 in the Murgode (Vow) Talukas. 1st November 1879 & 8th December 1879 I did the Jamabandi of 82 villages of which 62 were revised assessment villages and Mr. Thuer did the Jamabandi of 98 villages of which 69 were revised assessment villages of Dharwar. (You) did the Jamabandi of Vow.

4 The results of the Settlement are as under :—



5 A Comparison with the Settlement of last year reports now in hand of 6910 of 11th July 1871

Talukas	More	Less	Net Increase	Decrease
Dharwar	69,463-6	2,423-12-5	67,039-9-7	
Kowlgud	720-8-3	1664-1-8		943 9 5

the balance of Rs 931-11-1 only as due in my charge for 1876/77. 1877/78 and 1878/79.

I note that no balance of arrears is now due from Talukas are outstanding

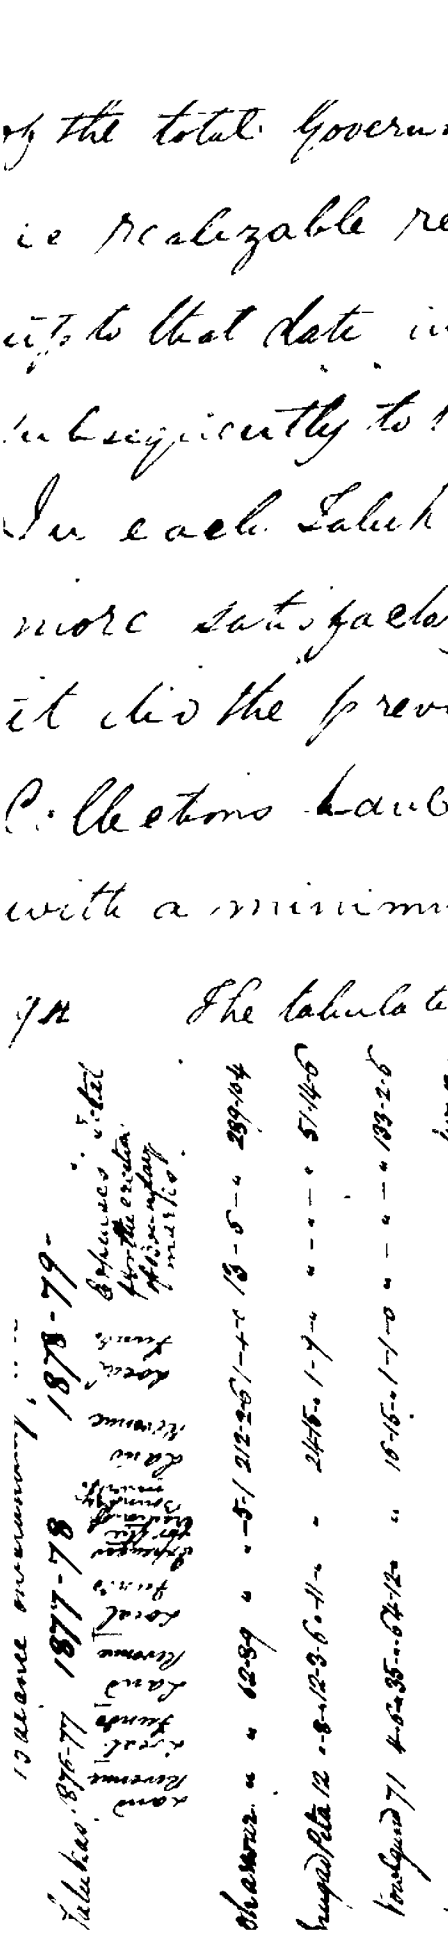
10 The Marginal statement shows

Talukas	Rainfall Average of five preceding years	Rainfall Current year
Dharwar	33.90	37.59
Nowlgund	26 26	24.14
Ron	27.75	25.60

the rainfall of the Current year in contrast with the average fall of the five years preceding. The Dharwar Taluka alone has had more than an average rainfall. The rains set in on the 22nd of May. Rats had increased and multiplied and replenished these districts in destroying the juwari and toor, especially in the black soil tracts of Nowlgund and Ron that it was determined to destroy them by Warrants - From 21st July 1879 to 31st January 1880 the re-

of the total Government demands
i.e. realizable revenue) ascertained
up to that date including those arising
subsequently to the Jamabandies.
In each Taluk the result appears
more satisfactory this year than
it did the previous year. The
P. Chetpet Taluk alone is affected
with a minimum amount of Coercion.

ps The tabulated marginal portion gives



the balance of Rs 931-11-1 only as due in my Charge for 1876/77. 1877/78 and 1878/79. I note that no balance of a pie is mentioned as due. The balances are outstanding

10. The marginal statement shows the rainfall of the Current year in contrast with the average fall of the

Talukas	Rainfall Average of five preceding years	Current year
Dharwar	33.90	37.59
Kowlgud	26 26	24.14
Hon	27.75	25.60

five years preceding. The Dharwar Taluka alone has had more than an average rainfall. The rains fell on the 22nd of May. Rain had an increased and multiplied and replenished these districts destroying the worms and poor especially in the black soil — Famine has not Kowlgud and Hon that it was determined to destroy them in March from 21st July 1874 to 31st January 1877. The

of the total Government demands
(or realizable revenue) ascertained
up to that date including those arising
subsequently to the Jamabandies.
In each Taluk the result appears
more satisfactory than it was
at the previous year. The
Collectorate Land Revenue Effective
with a minimum amount of Coercive

The Calculated Marginal Portion

| | | |

10. The marginal statement shows the rainfall of the current year in contrast with the average fall of the five years preceding. In Dharwar Taluka alone has had more than an average rainfall. The rains fell in on the 22nd of May. Clouds had an increased and multiplied and replenished the districts clearing the waters and took especially in the black soil tracts of Gadag and Navalgund and Dharwar that it was determined to sow the seeds in Dharwar on 21st July

Talukas	Rainfall Average of five preceding years	Current year
Dharwar	33.90	37.59
Navalgund	26 25	24.14
Nam	27.75	25.60

vermin were being killed. I visited each Taluka in my charge and personally superintended the measures undertaken for their destruction. Ahmedabad was free from the pest - in the rest of my charge - over 3½ millions of rats were killed. See para 6 of your No. 3529 of 22nd August 1879 you were good enough to write to me as follows "I have to thank you for your very zealous exertions to carry out the wishes of Government by stimulating as far as possible the destruction of the destructive vermin in your district." The rats were destroyed in time and takavi was given to poor ryots for the purchase of other seed in the place of that

already known and called by the name.
The Crops were good. In the Nawa
Talluk they could not have
better- the rains seemed always to
fall so seasonably. In the Mugavalu
the rice which is the staple crop
was a bumper crop. In my black
soil talukas the gram and wheat
were bumper Crops- the same may
almost be said of the red and white
jowari. The moongari crop of red
jowari was not so good as the
other crops named above, but
this is not important where moon-
-gari : kiingari :: 1 : 3. This season
the Rains set in on the 26th May
1880. Later on we had a prolonged
break, and I must say that I
have never the Chance of a famine

vermin were being killed. I visited each Taluka in my charge and personally superintended the measures undertaken for their destruction. Mujgaon was free from the pest - in the rest of my charge - over 3½ millions of rats were killed. In para 6 of your No. 3529 of 22nd August 1879 you were good enough to write to me as follows "I have" "to thank you for your very zealous" "exertions to carry out the wishes of" "Government by stimulating as far as" "possible the destruction of the destructive" "vermin in your district." The rats were destroyed in time and takavi was given to poor ryots for the purchase of other seed in the place of that

Already sown and eaten by the rats. The crops were good. In the Bhavani Taluk they could not have been better- the rains seemed always to fall so seasonably. In the Moyar Peta the rice which is the staple crop was a bumper crop. In my black soil talukas the gram and wheat were bumper crops- the same may almost be said of the red and white jowari. The moongari crop of red jowari was not so good as the other crops named above, but this is not important where Moonguru : kingaru :: 1 : 3. This season the rains set in on the 26th May 1880. Later on we had a prolonged break and I must say that we have received the Chance of a famine

each talooka in my charge and personally superintended the measures undertaken for their destruction. Mujadwa was free from the pest - in the rest of my charge - over 3½ millions of rats were killed. In para 6 of your No. 3529 of 22nd August 1877 you were good enough to write to me as follows "I have" "to thank you for your very zealous" "exertions to carry out the wishes of" "Government by stimulating as far as" "possible the destruction of the destructive" "vermin in your district." The rats were destroyed in time and takavee was given to poor ryots for the purchase of other seed in the place of that

already sown and eaten by the rats. The crops were good. In the Shiravi taluk they could not have been better- the rains never always to fall so seasonably. In the Mugad Peta the rice which is the staple crop was a bumper crop. In my black soil talukas the gram and wheat were bumper crops- the same may almost be said of the red and white jowari. The Moongari crop of red jowari was not so good as the other crops named above, but as this is not important where Moongari : Hingari :: 1 : 3. The season set in on the 26th May 1893. Later on we had a glorious break and I must say that on the whole the character of the

setting in last on the 24th proximo the rain came down and it has rained (though more lightly since yesterday) ever since and there can be now no reasonable fear of famine this year

11. The general condition and prospects of my charge in a material point of view are favourable. The arable area still available

Talukas	Cultivation 1879-79	Cultivation 1879-80	Fore Less	Arable area still available
Dharwar	1,26,632-31	1,27,087-24	1249-22	794-29 4,713-15
Nowlgund	24,121-16	2,40,861-10	3-29	364-5 35-5-2
Ron	164491-36	164,007-9	31-24	515-11 624-4
Total	5,32,246-3	5,31,965-38	1383-35	1,074-5 5,742-21

The arable area still available compared with last year is as follows

Talukas	Increase
Dharwar	671-56
Nowlgund	329-22
Ron	520-36
Total	1,522-14

cultivation has decreased throughout
the year by 1,522 acres 3 roods 14 p. This can
hardly to be wondered at (and may
add that the decrease might perhaps
have been greater, had not labour
been advanced in the Navigation
and Com Laws for the purchase
of seed as noticed in my last re
para). When we learn in addition
that within the last four years
we have had famines for the first
two years immediately followed in
the two succeeding years by plague
& Mal. The diminution in the
Revenue which has been also occa
sioned by the introduction of the
Revised System of Collection
etc. etc. I have heard that
a Petition for the following

setting in - but on the 24th proximo the rain came down and it has rained (though more lightly since yesterday) ever since & there can be now no reasonable fear of famine this year.

11 The general Conditions and prospects of my charge in a materia

Talukas	Cultivation 187[illegible]-79	187[illegible]-80	Increase	Decrease	Arable area still available	point of view
Dharwar	126632·31	127087·24	1249·12	794·29	4,763·15	are

Arable area still available.

Compared with last year is as follows.

Talukas	Increase
Dharwar	671·16 acres guntas
Nowlgund	329·22
Ron	520-36
Total	1522-14

cultivation has decreased throughout
the year by 1,522 acres yearly. There is
hardly to be wondered at, and I may
add that the decrease might perhaps
have been greater, had not attention
been attracted to the Homestead
Act (for Sale transfer of Government
of Reed as noted in my last re-
port). When we bear in mind
that within the last four years
we have had famine for the first
two years immediately followed by
the two succeeding years by plague
of rat. The diminution in the
Famine Sale has been also occa-
sioned by the introduction of the
[illegible] Sections Act. The Com-
[illegible] I have [illegible]

Pettigrew - but on the 24th proximo
the rain came down and it has
rained (though more lightly
since yesterday) ever since and
there can be now no reasonable
fear of famine this year.

11 The general Conditions and

"As regards field No II he feels that"
"for 30 years he has been paying"
"an assessment of Rs 6 - whereas he"
"should properly have been paying"
"Rs 9. He considers that he has a"
"personal grievance against the"
"field and a fortiori deems that"
"he has a stronger personal ..."

prevailed against field No. III. He
lost the discards as according to his
lights he would a barren wife and
perhaps also he with discard field No.
but field No. I. his fruitful field he
never, if intolerably good Circumstances
could think of parting with." Etc.
Of course without saying that if the
field paid well the ryot is not
likely to throw it up merely because
the Revenue Survey have not raised
its assessment, in fact all land
thrown up, in my judgment may
be safely presumed to be unduly
assessed with reference to the
existing agricultural circumstances
of the Khatedars (registered occupants
of the land thrown up.) The
revised Survey Rates are high

memorandum may suggest. It is contended
that the words expressed cannot are
thrown up upon the introduction
of the provided fields. But the
principle is easy to understand
respecting the three fields
which formerly received at 1/6
a revised Rate raise his assessment
field No I 6 pence & leave the
old No II at 1/3 pence 6 and reduce
it on his field No I, 1/6 5-8 ..
As regards field No II he says that
for 30 years he has been paying
an assessment of £ 6 which he
should if properly have been paying
now. He considers that he has a
personal grievance against the
field and a fortiori deems that
he has a stronger personal

grievance against field No. III. He
"last he discards as according to his
"rights" he would a barren wife and
"perhaps also he will discard field No. II
"but field No. I - his fruitful field - he
"never, up to tolerably good Circumstances
would think of parting with." Etc etc
of Course without saying that if the
field paid well the ryot is not un-
likely to throw it up merely because
the Revenue Survey have not raised
the assessment, in fact all land
thrown up, in my judgment may
be safely presumed to be unduly
assessed with reference to the ex-
isting agricultural Circumstances
of the Holders (registered occupants)
of the land thrown up. The
revised Survey Rate are high

humorous way, viz:- It is curious"
that the latter expressed Canada are"
thrown up on the introduction"
of the French Laws. That the"
principle is can be understood"
respecting Rachel, a has three fields"
each formerly assessed at No 6."
The present Rate raise his assessment"
on field No I to Rates of Lower Canada"
field No II at Rates 6 and reduce"
that on his field No III to No 5. S. ."
As regards field No II he says that"
for 30 years he has been assessing"
on a assessment of £ 6. which he"
think is proper has been paying"
now. He considers that he have a"
personal grievance against the"
field and a portion deem that"
he has a stronger personal ."

grievance against field No. III. He
"last he discards as according to his
"rights he would a barren wife and
"perhaps also he will discard field No. II
"but field No. I. his fruitful field - he
"never, if in tolerably good circumstances
"would think of parting with." Etcetera
of course without saying that if the
field paid well the ryot is not
likely to throw up more because
the Revenue Survey have not raised
the assessment, in fact all land
thrown up, in my judgment may
be rightly presumed to be unduly
assessed with reference to the
existing agricultural circumstances
of the Ráyatdars, regulated accordingly
by the land thrown up. The
Revenue Survey Rate are high

but are certainly not higher than they should be - and I may add that the Survey Superintendent I have found as liberal as I have ever wished, and my requests have not been unduly limited, in his grants of forest grazing, "nurmadi" &c — to the villagers. The value of occupancies four times that of the assessment and in Sirsi and Yellapur is higher - and the accumulation of Capital progresses principally in the hands of traders but in Sirsi the ryots too have a share in this increase. In the Dharwar Taluka 28,945.27 acres gunta were the forest area

under Mr. Robertson's
reservation. The Forest
Settlement Officer
to, and rights to take advan-
tage of the Combaredi result
of famine, reserves
serves to add largely to the
forest area. The Forest
Settlement of the Dharm
taluk was in progress
this season and I un-
understand that Consi-
derable additions to Mr.
Robertson's forest area
will be proposed. In the
Nurgund Peta the babul
reserves in two (2) village
belong to the Forest
Department. In the

but are certainly not higher than they should be - and I may add that the Survey Superintendent I have found as liberal as I have ever wished, and my requests have not been unduly limited, in his grants of grazing, "kurnadi" &c to the villagers. The value of occupancies is four times that of the assessments and in Sirsi and Ron is higher - and the accumulation of Capital progresses principally in the hands of traders but in Sirsi the ryots too have a share in this increase. In the Dharwar Taluka 28,945.27 acres were the forest area

under Mr. Robertson's demarcation. The forest Settlement Officers are sure to, and rightly so, take advantage of the Combined result of famine, rats and remeasurement to add largely to the forest area. The Forest Settlement of the Dharwar taluk was in progress this season and I understand that considerable additions to Mr. Robertson's forest areas will be proposed. In the Sirsi and Yella the babul reserves on two (2) villages belong to the Forest Department. In the

but are certainly not higher than they should be - and I may add that the Survey Superintendent I have found as liberal as I have ever wished, and my requests have not been unduly curtailed, in his grants of [illegible] grazing, "nirmandi" &c to the villagers. The value of occupancies is four times that of the assessments and in the Gundavelly Pore is higher - and the accumulation of Capital progressing principally in the hands of traders but in Surgum the ryots too have a share in this increase. In the Dharwar Talooka 28945.27 acres were the forest area

under Mr Robertson's demarcation. The Forest Settlement Officers to and rightly so, take advantage of the Combined result of famine, rats and Revision Survey to add largely to this forest area. The Forest Settlement of the Dharwar taluk was in progress this season and I understand that considerable additions to Mr Robertson's forest areas will be proposed. In the Gurgunde Pela the Kabul reserve includes two (2) villages belonging to the Forest Department. The two

Kod	15	2584	—	—	—	421-5-9	Less
Total	59	17019	4	479	52	848-11-6	Total

Of planting and transplanting the second year after the new growth and in the second planting among the dead ones. The plan suggested a year ago in the Honorable Mr. Pedder's minute has been adopted for a year's experiment in Dharwar the details are worked out in the Collector's letter of the 5th inst.

dug, before the previous monsoon
along the roadside. The soil of
"Ain" Saluka which consists of
black soil, is unsuited for the
growth of trees, No young plants
have been raised to be planted
out there. There is a Nursery
at Nargund in which there
are 450 plants of a years growth,
which will be planted out during
the rains of 1881. Seventy-nine
other plants viz, Mango plants
in this Nursery have died.
In the New Saluka there are
two Nurseries one at New
in which the plants are
very healthy, and the other
at Naregal. There are in these
Nurseries 1450 plants of a
years growth. They will be planted
out during this monsoon. Five hundred
pits on the Abbigeri New road
and 382 on the Naregal, Nelamadgi
road are read for their reception

Fifty other plants in these Nurseries have died

Road work has been suspended
and will not likely be resumed

which are in progress in my District. The Imperial Works are Military and do not properly belong to my jurisdiction. There are four Provincial Roads — On the Sharwar Ghat road 505 Cubic feet were spent on building the Divali Bridge. The Abutment and also two out of four arches have been completed. It is expected that the work will be nearly Completed before the Rains. The Poona Nasik Road leads through the Sharwar Ghats and is complete in all respects. The Public Smugglers Godang Road has a Morrum surface and is complete. The Sholapur Ahmednagar Road

now under Construction from
through Nowlgund Taluk and
will when Completed be of
great value in a part of
the District where, especially
in the Monsoon, Communication
are inferior and will also
be an important feeder to the
Railway at Hubli for the
Nurgund people, and shall
be made available for traffic
at all seasons. The same
holds good of the road from
Nowlgund to Annigeri and
from Annigeri to Nulgund
I very much regret to have
to write that the Hubli Shiggaon
Road work has been suspended
and is not likely to be re-

to be taken in hand during
the year I have no discretionary
allowance to expend.

26. The general progress
of work throughout my charge
during the year has been satis-
factory. The work mentioned
by Major Elder C.S. and Riding
in their report of July 1877 still
remains desiderata. I note that
steps have been and are being
taken to preserve tanks in the
Nowlgund and Kop Talukas.
It is most important to keep
all Local Funds on the Godag
Nargal and Godag Kop roads,
extending the latter road on into
the Kaladgi District. These
roads will serve as feeders

to the Yearly Revenue of the Pro-
posed Middle and Sunday Schools
At a District Board of Works
Meeting held this year it was
decided to keep all Local Funds
as far as possible on the Re-
Last-named roads. No funds
become available the following year
might also be undertaken. The
might be borrowed from Govt
to Central Sapta in the town of
Dharwar and from there sent
on to the Kasbas of those who
would pay for the extra outlay
A Dispensary might be opened
at Navalgund. At Nargund
the Kalladgi Sub-might be
deepened on the lines laid down
in your No. 109 of 28th April 1880.

to be taken in hand soon. During the year I had no discretionary allowance to expend.

26 The general progress of works throughout my charge during the year has been satisfactory. The works mentioned by Messrs Elders C.E. and Muding in their reports of July 1877 still remain desiderata. I note that steps have been and are being taken to preserve tanks in the Nowlgund and Kopa Talukas. It is most important to keep all Local Funds on the Godag Naregal and Godag Kopa roads extending the latter road on into the Kaladgi District. These Roads will serve as feeders

to the Gadag terminus of the pro-
posed Hubli and Gadag railway.

At a District Local Funds
meeting held last year it was
decided to keep all Local Funds
as far as possible on these two
last-named roads. As funds
become available the following works
might also be undertaken. Water
might be brought from Hosur
to Central spot in the town of
Dharwar and from there laid
on to the houses of those who
would pay for the extra outlay
A dispensary might be opened
at Navalgund. At Nargund
the Kalleshvari Tank might be
deepened on the lines laid down
in your No. 109 of 28th April 1880.

to be taken in hand soon. During the year I had no discretionary allowance to expend.

26 The general progress of works throughout my charge during the year has been satisfactory. The works mentioned by Messrs Elders C.E. and Auding in their reports of July 1877 still remain desiderata. I note that steps have been and are being taken to preserve tanks in the Nowlgund and Non Talukas. It is most important to keep all Local Funds on the Godag Naregal and Godag Non roads extending the latter road on into the Kaladgi District. These Roads will serve as feeders

to the Gadag terminus of the pro-
posed Hubli and Gadag Railway.
At a District Local Funds
meeting held last year it was
decided to keep all Local Funds
as far as possible on these two
last-named roads. As funds
become available the following works
might also be undertaken. Water
might be brought from Nawalgund
to Central spots in the town of
Dharwar and from thence laid
on to the houses of those who
would pay for the extra outlay.
A dispensary might be opened
at Nawalgund. At Nargund
the Kalleshvari Sank might be
deepened on the lines laid down
in your No. 109 of 28th April 1880.

[illegible] village against [illegible]
self the cost the Mussulmen
between [illegible] and Gyanmtop
might be bridged. In the
Pore Salute the most urgent
want is a dak at Kanzgeria.

Vth Municipalities

At [illegible] Ben Resident
of three Town Municipalities.
The Khasan Municipality
under its Chairman the Major
Deputy Collector. Rs 1,532 Rupees have been
spent in repairing the
Improved road. The Kanzgeria
dak has been constructed
to join the Poleswar road
and a second road has

in the
work. I have examined the
accounts of the three Municipalities

Name of Municipality	Name of Contributor	₹	Object
Dharwar	Bhimrao Nimrao Desai	100	The Dharwar Water Supply

In the
margin
ally
notes instances a Contribution
for public purposes has been
made by a private individual.
In two other instances, in the

Town Labels, ~~Contributions~~ for public purposes have been made by private individuals.

27A. The Yemignur Tax Fund which is derived from a poll tax of one anna per head paid by pilgrims visiting the fair, had on 1st July 1879 a balance of 3,142-9-6 Rupees. Its present balance is Rupees 4,957-12-3. Rupees 221-10-- from the fund have been spent in deepening the "Shettur" tank at Yemignur.

27B The Nurgund Anna-Chuttra fund, derived from lands set aside by us at the time of our acquiring Nurgund with a view to

may be placed in the first rank
for intelligence and ability
followed by that of Nowlgund.

The Commissioners named in the margin

Name of Municipality	Name of Commissioner
Dharwar	Jairao Lakshuman Keerdurg Rajas
Nowlgund	Prabhuna Shete Ayapa Shete Shidram Shete

take an interest in their work. I have examined the accounts of the three Municipalities

Name of Municipality	Name of Contributor		Object
Dharwar	Bhimrao Ramrao Dasai	100	The Dharwar Water Scheme.

See the marginally noted instance a Contribution for public purposes has been made by a private individual. In two other instances, in the

Now Taluk, Contributions for public purposes have been made by private individuals.

27A The Vyemignier Fair Fund which is derived from a poll tax of one anna per head paid by pilgrims visiting the fair, had on 1st July 1879 a balance of 3142-9-6 Rupees. Its present balance is Rupees 4,957-12-3. Rupees 221-10- a from the fund have been spent in deepening the "Vellur" tank at Vyemignier.

27B The Nurgund Amma-Chuttra fund derived from land revenue has at the time of our enquiries Nurgund with a view to

may be placed in the first rank
for intelligence and activity
followed by that of Navalgund.

The Commissioners name in the margin

Name of Municipality	Name of Commissioner
Dharwar	Vainoba Lakshman Nesarikar
Navalgund	Prabhuna Shete
	Ayappa Shete
	Shidrama Shete

an interest in the work. I have examined the accounts of the three Municipalities

Name of Municipality	Name of Contributor	Amount	Object
Dharwar	Bhimrao Ramrao Desai	100	The Dharwar water scheme

See the margin fully noted instance a contribution for public purposes has been made by a private individual. In two other instances, in the

Non Taluk, Contribution for public purposes have been made by private indi-viduals.

27A The Ayengnir Fair Fund which is derived from a toll tax of one anna per head paid by pilgrim visiting the fair and on July 1879 a balance of 3142-9-6 rupees. The present balance is rupees 4957-12-3. Rupees 221-10- a from the fund have been spent in deepening the bottom tank at Ayengnir.

27B The Inspector Anna Chettiar have rented from land valuation at the time of our Survey in 1894 which is

improve the water supply
of the town, had on 1st July 1879
a balance of 3599-7-4 Rupees.
The present balance is Rs. 3537-11-7.
Rupees 72-1-12-11 have been spent
in deepening the Kumbargutti
tank at Nargund and
42-2-2 Rupees have been paid
as remuneration to Patels
and Kulkurnis. As
ordered in your No. 109 of
28th April 1880 Rupees 1,100
yearly will be pledged from
this fund to a Sowkar who
has been kind enough to
promise to lend us Rs. 5000
without interest to enable us
to deepen and otherwise improve
the Kalleavi tank at Nargund.

28 The extent of general Conse-
vancy arrangements may be inferred from
the expenditure shown in the last
paragraph. Barring the Sadar
Station at Dharwar there are no
dispensaries in my charge. The
opening of a new Dispensary
at Torgund is contemplated.

29 The year's vaccination

Taluka or Peta	Number vaccinated
Dharwar	2470
Hangal Peta (Karajgi Taluka)	272
Kalghatgi	1615
Nargund Peta (Nargund Taluka)	133
Navalgund	898
Total	5388

appears to have made more satisfactory progress in my charge. The returns give the marginally noted results.

As compared with last year the total has increased by

improve the water supply of the town, had on 1st July 1879 a balance of 3599-7-4 Rupees. The present balance is Rs. 3537-11-7. Rupees 721-12-11 have been spent in deepening the Nambarzutti tank at Nurgund, and 42-2-2 Rupees have been paid as remuneration to Vakils and Mukhtarnis. As ordered in your No. 109 of 28th April 1880 Rupees 1,100 yearly will be withdrawn from this fund to a Sowkar who has been kind enough to promise to lend us Rs. 5000 without interest payable on to deepen and otherwise improve the Kalleri tank at Nurgund.

28 The extent of general Conservancy in towns may be inferred from the expenditure shown in the last paragraph. Barring the Sadar station at Bhagwa there are no dispensaries in my charge. The opening of a new Dispensary at Jaurgaon is contemplated.

29 The vaccination

Taluka or Peta	Number vaccinated	As there are to have made more than last year the returns given in the marginal note are compared with last year the total has increased in
Bhagwa	2470	
Jaugaon Peta (Bhagwa Taluka)	200	
Jaugaon	1615	
Jaurgaon Peta (Jaurgaon Taluka)	133	
Ulon	895	
Total	5388	

improve the water supply
of the town, had on 1st July 1879
a balance of 3599-7-4 Rupees.
The present balance is Rs 3537-11-7.
Rupees 71-12-11 have been spent
in deepening the Nambargutte
tank at Nargund and
42-2-2½ Rupees have been paid
as remuneration to Taleti
and Nuttumie. As an
Order in open No 109 of
28th April 1880 Rupees 1100
yearly will be pledged from
this fund to a Contractor who
has been kind enough to
promise to lend us Rs 5000
without interest to enable us
to deepen and otherwise improve
the Nabobsaw tank at Nargund.

VII (Protection)

28 The extent of general Conser-
vancy in town may be increased from
the expenditure shown in the last
paragraph. Passing the sewer
drain at Thrasher Square no
destructive in my charge. The
cleaning of sewers & dispensary
at Carlyon Bridge in particular.

29 Vaccination

30 Mr. Furgusson and Mr. Inverarity

Station during the rains. I decided 109 titles.

35 When in Dharwar I visited the Dharwar District Jail regularly once a month, and when I was at Huzur Deputy Collector I visited it regularly once a week—Vide Government Resolutions Nos. 2492 and 3421 (Judicial Department) of 29th April and 20th May 1880.

Mr Hussey the jailor of the Dharwar District Jail has been transferred from Dharwar. See Government Resolution No. 3421 (Judicial Department). Mr Hussey has been warned that he

any further acts of negligence on his part will lead to his dismissal from Government employment.

From 21st to 25th November 1879 I was in Dharwar by your orders inquiring specially into the truth of Venkat Ramanacharya's petition against Mr Stuart and other subordinate authorities of the jails I inspected, and examined the accounts of the Hon. sub-Jail twice in which I examined the Taluka Accounts

35 A While I was at Karwar I visited the District Jail regularly once a week

30 At Kurgunda

in the Nowlgund Taluka I introduced the 'turum' jamabandi or revised assessment rates into 27 villages. The Survey Superintendent, who was present introducing the revised rates into other villages, found I believe nothing wrong in my work.

37. I was appointed by Government Resolution Revenue Department — Leave of absence No. 1366 of 16th March 1880 As Huzur Deputy Collector of Karwar. I held the appointment for over a month viz from 26th February to 26th March 1880, both days inclusive. In order to carry out the instructions contained in Government Resolution

31/90

(Judicial Department) No. 52.

of 2nd March 1880. I visited six villages as duly noted in para. 14 of this report. Twice a week or oftener I went to Kha bag and visited the pier work there which was under construction, underwine.

I have the honor to be,
Sir,
Your most obedient Servant

Assistant Collector &
Magistrate First Class.

in the Nowlgund Taluka I introduced the 'turun' jamabandi i.e revised assessment rates into 27 villages. The Survey Superintendent, who was present introducing the revised rates into other villages, found I believe nothing wrong in my work.

37 I was appointed by Government Resolution Revenue Department — Leave of absence No. 1366 of 16th March 1880 A.D. Nuzur Deputy Collector of Karwar. I held the appointment for over a month viz from 20th Febry to 26th March 1880, both days inclusive. In order to carry out the instructions contained in Government Resolution —

(Judicial Department) No. 152.

of 2nd March 1880, I visited six villages as duly noted in para 14 of this report. Since a week or oftener I went to Kha bag and visited the pier work there which was under construction under me.

I have the honor to be,
Sir,
Your most obedient servant

Asstt Engr
Acting Assistant Collector
Nasik Salt Chowki

in the Nowlgund Taluka I introduced the 'Survey' Jamabandi i.e revised assessment rates into 27 villages. The Survey Superintendent who was present introducing the revised rates into other villages found I believe nothing wrong in my work.

37 I was appointed by Government Resolution Revenue Department — Leave of absence No. 1300 of 10th March 1880 as Huzur Deputy Collector of Karwar. I held the appointment for over a month viz from 20th February to 26th March 1880 both days inclusive. I in order to carry out the instructions contained in Government Revenue

31/40

Judicial Department) No 1521

of 2nd March 1880. I visited six villages as duly noted in para 14 of the report. Since a week or often I went to Kodinar and visited the pier work there which was under construction under me.

I have the honor to be,

Your most obedient servant

Chas. Ives

Acting Asst Engr & Supdt Colaba

Marine Office
